Humidor Supreme®

Humidor Supreme®
Commercial Display Humidor 5500
See page 6 for details.

Since 2001, Humidor Supreme® has been the premiere choice for cigar enthusiasts seeking high-quality humidors. Each humidor includes premium kiln-dried Spanish cedar, quadrant hinges, and our exclusive SureSeal® Technology that guarantees optimum humidification.

Cigar Storage Capacity You Can Trust

Humidor Supreme® is the only brand that publishes the actual calculated cigar storage capacity using the popular Toro and Corona cigar sizes for a real world reference.

Using our proprietary system, we meticulously measure the interior depth, width, and height of all our humidors; including trays and drawers when included, and convert the interior cubic dimension to the number of cigars that will comfortably fit in each humidor. Capacity is published using our "Toro to Corona" format, the larger Toro cigar first, then the smaller Corona cigar to help you select the humidor that's best for you. For example, a stated Capacity 100-180 means storage will fit 100 (Toros) or 180 (Coronas).

SureSeal® Technology

Groundbreaking innovation that assures the perfect level of humidification, offering peace of mind and preserving the essence of your cigars.

Quality & Craftsmanship in the Details

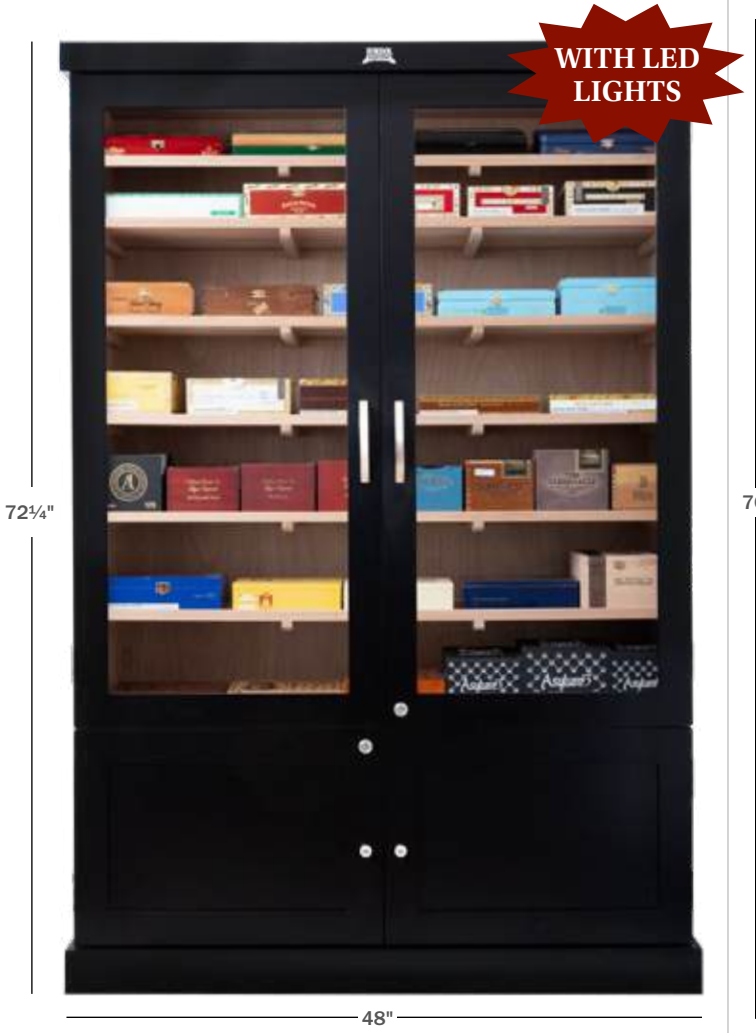

Each humidor is crafted with kiln-dried Spanish cedar and robust quadrant hinges.

Customization Services

Announce your brand to the world with our Swag Bunker® customization services. From logo printing to engraving, we offer a range of options to make your humidor speak to the world in your unique voice. Explore opportunities to print, wrap, and engrave commercial cigar displays and desktop humidors.

A Selection for Extensive Product Line

GLOBAL NFT GALLERY COLLECTION

QI believes in being a patron of the arts, and in the emerging NFT space it is increasingly easy to support budding digital artists. NFTs (non-fungible tokens) are unique cryptographic tokens on the blockchain that can represent anything from digital art, real estate, to even a person's identity. QI has taken a unique position to bring these digital works of art to life by creating a line of accessories with the goal of assisting artists in their endeavors. With every sale of these luxurious pieces of functional art, a portion of the proceeds will go to the artist to further support their work.

The Calavera line is inspired by Dia de los Muertos. Designed by India based artist Jahnvi Arora specifically for QI, the Calavera features a classic sugar skull design with a twist as it features hidden QI designs.
